

**New Product Alert!**

**QwikFlash™**

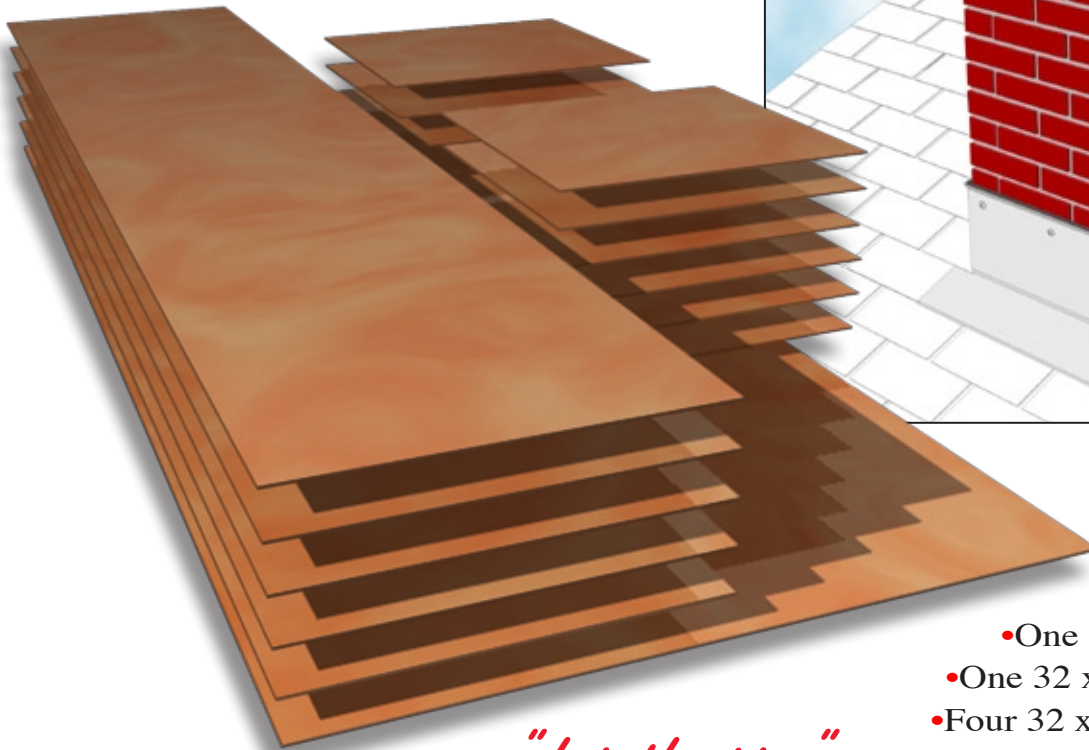

## Complete Control Over Your Flashing Project

Only QwikFlash™ gives you all the flat stock needed to flash-in a standard single flue chimney without limiting your ability to place bends as you see fit. Designed by roofing professionals, QwikFlash™ can be bent on any brake or hand folding tool, whether in the shop, or on the job site. Pre-cut blanks save time and money over handling coil-stock and from the waste that goes along with it, while giving you the one accessory homeowners don't mind paying for.

Cricket flashing can be modified into a saddle-type flashing with a few simple changes. Visit us online for more details.

U.S. & Foreign Patents Pending

*"for the pro"*

Each Kit Contains:

- One 32 x 8 inch base flashing
- One 32 x 16 inch cricket flashing
- Four 32 x 8 inch counter flashings
